LOCAL BRIEFS.

See notice elsewhere of mule taken up.

We regret to hear that the physicians report a great deal of sickness in the city at present.

Governor Caldwell is on a visit to his home in Morganton. He will remain there for a month.

Quite a large number of citizens are at various summer resorts in search of health and pleasure.

We regret to learn that Mr. W. F. Huggins, Steward of the Insane Asylum, is very ill with typhoid fever.

Yesterday was pay day at the Insane Asylum. It averages about $1100 per month to pay off the employees.

H. A. Foote, Esq., editor of the Warrenton *Gazette*, paid our city a visit yesterday and registered at the National.

Kerr Craige, Esq., the talented young member of the House of Representatives from Rowan, was in the city yesterday.

The many friends of Mr. Churchill will be sorry to learn that there has been no material improvement in his condition.

The friends of Martin VanBuren Gilbert are looking blue. They express their fear that he will be Snowed under in the coming election.

We learn that our fellow-townsman, Major Seaton Gales, has accepted an invitation to deliver an address to the Odd Fellow fraternity of Newark, N. J.

The fight over the Revenue Collectorship of this District has not ended yet. Major Gen. Willie D. and Ex-Postmaster are a hankering after the flesh pots of Egypt.

We learn that during the storm last week a negro man was killed by lightning in Buckhorn Township. He was plowing at the time. A woman working near by was badly stunned.

A number of colored citizens met last evening at the Court House to organize a military company. We learn that a committee was appointed to enroll names and take other necessary preliminary steps.

We hope our County Commissioners are not going to content themselves with the slight improvement made in the Court House, but will give us a building suitable for the proper and convenient transaction of county business.

We are requested to state that the Secretary of the N. C. Agricultural Society will call upon subscribers to-day and to-morrow for the 2nd instalment of their subscription to the State Fair Fund. The money is absolutely needed now.

The session of the Supreme Court yesterday was taken up in the argument of the case of M. A. Bledsoe vs. Mary Nixon *et al.*, from Wake. This case has been up since Saturday. A conclusion of the argument was reached yesterday.

We have received the annual catalogue for 1873 of the Chowan Baptist Female Institute, located at Murfreesboro, of which the Rev. Dr. A. McDowell is Principal. It represents this popular school of learning to be in a most flourishing condition.

Bunting was elected President; Mrs Virginia Ballard, Vice-President; Mrs Dr. Young made Secretary; Miss M. Starr made Corresponding Secretary and Mrs. Starr made Treasurer. Some fifteen ladies connected themselves with the Society. A committee was appointed to prepare a Constitution and By-Laws. Meeting adjourned to meet next Monday afternoon at 5½ o'clock.

THE DAILY NEWS.

VOL. II. RALEIGH, N. C., WEDNESDAY MORNING, JULY 16 1873. NO. 121.

SHADE TREES AND ADUMBRATIVE SPECULATIONS.—When Oglethorpe laid out Savannah, Ga., he made especial preparations for the planting and propogation of shade trees, and the blessings of unbrageous coolness is still duly appreciated by the people of that beautiful city. But business and business houses are the great enemies to trees and foliage in our large cities, where artificial awnings, varigated with advertisements and gaudy colors to attract the eye, economise space and supply a thin deceptive border of shadow upon the great thoroughfares and arteries of commerce. It would be a splendid thing, one would say, to have a line of majestic oaks, towering along Broadway from the Battery to its limits, but beautiful as the proposition may appear on paper, it would not meet with favor for a moment since the monarch of the forest would be voted a nuisance in the city, staining the walls, encumbering the streets with chaff and limbs, and above all cutting off a full view to brown-stone fronts, iron corriders, marble palaces of trade, &c., and preventing an opportunity to blazon "Smith & Co." in golden letters upon every front and cornice to the gaze of a heated and perspiring multitude. So thus it will be always, for man makes the town, God the country.

This little *rus in urbe* that we have in our own diminutive metropolis is, however, not so far advanced as to dispense with shade trees, and if Fayetteville street were bared of their protection, we believe an indignant public would trade elsewhere in comfort and coolness. But it will not be so with us very long, though we wish it could be otherwise forever. When the trees that we have fail and perish, should our increase in population continue, our streets will all become as bare as those now around Exchange Place, and just as hot and horrible in the noontime.

Meanwhile, upon the cut-skirts and on the new streets, we hope that tree-planting may continue. An ample shade increases the value of property in this community, adorning it and rendering every lot more available for building purposes.

The elm appears to be a favorite tree here as elsewhere, and it deserves its pre-eminence. But there are varieties as excellent and as useful. The Pollenia is one of these, which is now attracting merited attention, and we trust may be planted freely upon our walks throughout the city. The Otcheite Mulberry on the contrary and the Ailanthus are a nuisance. Both give a good shade, it is true, and are of rapid growth; but the one is a confirmed enemy to brick foundations and the security of cisterns, &c., and the other emits a fearful, and an almost infernal odor in the spring time. Some one has said that he who delighteth to inhale the perfume of the Ailanthus was surely cradled in the skin of ye ancient Limburger cheese.

Any one undertaking to obtain a bird's-eye view of Raleigh from the top of the Capitol at the present time, will be disappointed, since he can only obtain the view of a handsome forest, with a building here and a steeple there, one or two streets of store-houses with an out-skirt of cleared fields, smiling under a blazing sun, the horizon closing all in like the rim of a saucer, bordering with the dark green of unbroken forests, from the vale all around to the hill. It is a breezy place up there, cool over head, but hot and sticky under foot.

There is a theory advanced concerning trees, which is attracting a little attention, and that is about their musical qualities. It is said that each tree gives forth an harmonious concourse of sounds, when its leaves are stored with the wings of the wind, low to the zephyr and loud of the storm. Thus the plaintive pine, the whispering aspin, the cypress, the nestling oaks, the whistling willow, &c., &c., until it is reckoned that each one has a voice as distinct as is the nature of its heads and information. Now, says some one, could an instrument be invented which would magnify sound as the microscope magnifies sight, what harmonies, what unknown melodies, and wild strains would not the forest, those mighty harps in the hands of the King of storms, give forth to the ear of listening humanity? Truly it may be so; and it may be true that we live in a world of music and luxury which our dirt and shattered senses are unable to discover. In this light too we may thus perceive the meaning of that mystical expression, "the music of the spheres."

But to return to shade trees, etc., we hope that our citizens will continue to plant and to prune, to beautify and to adorn. The example of Hon. B. F. Moore in this particular is particularly valuable. He has a favorite maple in the Capitol grounds which is indeed a comely tree, near the eastern gate, which he cares for with a paternal affection almost, and besides this he has planted and nourished an avenue of beautiful elms across Nash square, which will be a source of pleasure long after he has been gathered to his fathers. Go there then, and do likewise, remembering what the gude auld Scotchman said to his son: "plant a tree, Sammy, it will be growing, mon, while you are asleep."

The white oak in Nash Square sadly needs "repairs." It is an old land mark and should not be permitted to perish. Twenty-four years ago it was shaken by a whirlwind and some of its branches rudely torn away, but it then recovered. Let the old giant be doctored into life once more, and another generation may gambol around its roots and roll upon its velvet sward.

CAPT. C. B. DENSON'S ADDRESS.—The last *Wilson Institute Quarterly* contains the address in full of Capt. C. B. Denson, before the Wilson Institute, on June 25th, 1873. The subject is THE PROGRESS OF ASTRONOMY, and is treated with ability and eloquence. It contains much useful information, couched in attractive and forcible language.

The *Quarterly* says the *elite* of Wilson were present and were charmed by the erudition, sublime thoughts and graceful delivery of the lecturer.

THE BIBLE CAUSE IN NORTH CAROLINA.—The fifty-seventh annual report of the American Bible Society contains an interesting account of the bible work in North Carolina during the past year, which has been under the immediate supervision of Rev. P. A. Strobel, of Raleigh. We copy the following extract from the conclusion of Mr Strobel's report:

"In reviewing the labors of the past year, the Superintendent for North Carolina would gratefully recognize the hand of a gracious and merciful God, in the preservation of his life amidst many perils, and in the large measure of health with which he has been blessed. The field which he was called to occupy is extensive, and demands no small measure of patience, zeal, perseverence and faith. Whatever success has attended his labors, he humbly ascribes to the blessing of God and the co-operation of Christian pastors and laymen. He is conscious of having endeavored faithfully to discharge his duty. He has sought, by faithful appeals to the people whom he has addressed, to stimulate an increased zeal and earnestness in the work of distributing the Scriptures. He regrets that his efforts in this direction have not been more successful, and that a greater interest has not been awakened among Christians, on behalf of the thousands of families who are "sitting in darkness," and famishing for the lack of "the bread of life." May the Great Head of the Church quicken his people, by the outpouring of the Holy Spirit, to a deeper sympathy with the benighted and the perishing, and to more prompt and earnest efforts for their salvation!

Receipts from North Carolina, $5,072,-72. Books sent thither, 35,589 volumes."

A NORTH CAROLINA INVENTION.—The newly invented cotton chopper and cultivator of Mr. J. B. Underwood, of Fayetteville, is attracting much attention in the section in which it has been introduced. Mr. W. A. McKay, of Richmond county, an old farmer and a gentleman of high character, has written a letter speaking of it in the highest terms. Says he:

"With the present scarcity of labor, its value to a farmer can only be appreciated by those who give it a trial. Having had a life time experience in the cultivation of cotton and knowing the requirements of the plant in its several stages of growth, and the necessity of a speedy reduction of the plant to a stand while young, I made a special examination of this feature of its work, and pronounce it a thorough success. It bars both sides of the cotton at the same time, much better than can be done by the ordinary plow, and chops out the surplus cotton, leaving the hills twelve inches apart, and it thoroughly cleans the cotton of grass. The soil on which this test was made was our river swamp land, possessing a diversified surface including much marsh, clay and sandy loam, abounding with the usual number of stumps on such land. There was no difference in its workings—no clogging or difficulty in passing stumps. It was drawn by one mule with as little effort as the lightest plow now used in the cultivation of cotton, and was guided with more ease than an ordinary plow. I am satisfied from what I have seen of the machine that if I could have gotten one twenty days ago on my farm, my crop to-day would have been benefitted by its use at least 50 per cent.

"I shall never plant another cotton crop without one of your machines"

LOUISBURG FEMALE COLLEGE.—Last week, says our Louisburg correspondent, was an enjoyable one for Louisburg. On Wednesday the chapel of the Female College was filled with an appreciative audience to listen to the annual commencement address, by Col. Wm. F. Green. Though much was expected of the Colonel, none went away disappointed. The address was an able one in every particular and most suitable to the occasion. It was earnest, practical and eloquent, and made a deep impression for good on those who had the good fortune to hear it. Col. Green is a gentleman of varied talents, and we are glad to see him put them to use in the sphere.

After the conclusion of the address, three young lady graduates viz: Misses Furman, Harriss and Hall, came forward and read their graduating essays. They acquitted themselves charmingly and were warmly applauded. Dr. William Royall, the President of the College delivered an impressive valedictory to the graduating class, and thus a very pleasant evening closed.

On the evening following the *soiree musicale* came off, and so large was the crowd that attended that almost a jam ensued. Miss Foster, the instructor in the musical department, has reason to congratulate herself upon the handsome manner in which her pupils acquitted themselves, for it reflected much credit upon her ability as a teacher as well as their aptness as scholars.

Organizing with many of our most prominent citizens from each section of the State as members, from its very inception it has commanded the confidence of the people. NEW YORK, July 15.—Yesterday eight letters were found in Kate Stoddard's possession written to Goodrich, and five from him to her, all showing that she regarded herself as his lawful wife. She addresses him as "My dear Charley" and "My dearest husband." The letters of both likewise show that they were married or went through a ceremony, which she supposed a lawful marriage, May 20, 1872, in New York, and were registered as man and wife at the Ashton House. Three of his letters are dated after the alleged marriage. The second tells her "it is better for both that we should separate." Report of the Condition of the Cotton Crop.

WASHINGTON, July 15.—The report of the condition of the cotton crop to the Department of Agriculture for July 1st, indicate as follows: Owing to causes reported in June, the crop is generally from two to four weeks later throughout the cotton States. The weather was unprecedentedly wet for a period varying from twenty-five to thirty days, ending about the 25th of June. The area of cotton planted was sufficient to tax the available labor to the utmost under the most favorable circumstance. consequently the excessively wet weather, preventing work and stimulating grass and weeds have caused a poor stand and grassy and otherwise unfavorable condition quite generally, but has necessitated the abandoument of large portions of the area planted, probably nearly enough to bring the average down to what it was last year. The reports with rare exceptions are despondent in tone, and picture a somewhat gloomy prospect. Doubtless the majority fall in with the common tendency to exaggerate the bad effect upon the crops of unfavorable weather prevailing in the present, and to underrate the future chances of recuperation from these effects. The reports show generally, that the favorable weather in the last days of June was having the effect to change the condition somewhat rapidly for the better. Cotton worms, caterpilars and lice had made their appearance in small numbers at several points, but as yet had not occasioned much apprehension of serious damage. The average condition for the cotton States, not counting Virginia, made up from all the counties reported, was 895. In detail the condition reported by figures gives the following result:

Virginia, 10 counties reporting, average condition 108, two being placed at 100, 6 above and 3 below. North Carolina, 43 counties reporting, average 91¼ at 100, 7 above and 22 below. South Carolina, 16 counties reporting, average 82, Laurens 100, all others below. Florida, 10 counties reporting, average 99, 3 at 100, 3 above and 4 below. Georgia, 58 counties reporting, average 94, 17 at 100, 10 above and 31 below. Alabama, 36 counties reporting, average 85, 6 at 100, 3 above and 27 below. Mississippi, 30 counties reporting, average 83, 8 at 100, 2 above and 20 below. Louisiana, 19 counties reporting, average 80, 1 at 100, 3 above and 15 below. Texas, 50 counties reporting, average 78, 2 at 100, 8 above and 40 below. Arkansas, 29 counties reporting, average 106,9 at 100, 4 above and 16 below. Tennessee, 24 counties reporting, average 66, 7 at 100, 5 above and 12 below.

Washington News.

WASHINGTON, July 15.—The signal service will be extended to the West Indies and the Windward Islands, and along the Eastern and Western Coasts of South America. Stations have already been fitted up and manned at the following points: Havana, Santiago De Cuba, Kingston, Porto Rico, St. Thomas, Antiogo, Guadaloupe and St. Vincents on the Windward Islands, from whence the observers are sending postal reports of their observations.

It is stated that Gen. Ballock, late of the Freedmen's Bureau, has placed his property in his wife's hands, beyond the government's reach.

The log-book in the library of the Navy Department suffered most. Nearly all the "logs" were damaged by fire and water. The fire was confined to the third wing. Nearly all the records of Bureau of Steam Engineering are lost. The Bureau of Ordinance lost heavily in records and papers. The proof room is entirely destroyed. It is supposed the fire originated from accidental combustion of chemicals in the Bureau of Ordinance. Nearly the whole building was flooded and at least half is unfit for occupancy.

To the President:

A fire broke out at about 5.30 this a. m., in the third story of the back building of the Navy Department, probably originating in the printing room. The fire department was promptly on hand, and working with great efficiency soon had the fire under control and put it out finally before 7 o'clock. The principal damage is by flooding from water. Only a few drawings and no important records were destroyed. The business of the department is not seriously interrupted.

HAVANA, July 15.—The Colonels of several volunteer regiments are circulating a petition for signatures among the officers and men of their commands to send to the authorities at Madrid, in opposition to the Republican manifest and the projected reforms in Cuba. Several companies have refused to sign the petition, but most of them favor it. A very bitter feeling exists between Conservatives and Republicans.

KINGSTON, JAMAICA, July 15.—A Spanish man-of-war has just arrived in this harbor. Her coming excites great alarm for the safety of the steamer Virginius. The Spaniards threaten to take her, and Tuesada declares he will blow her up, no matter at what sacrifice, rather than permit her to be taken. The United States Consul went last night at midnight with some Cuban gentlemen, resident here, to solicit the interference of the British Colonial authorities. The excitement growing out of the affair is very great. It is believed an arrangement has been made for the Virginius to meet the released schooner village Bride with a cargo of arms from Port Ontario on open sea near this Port, the Government of Jamacia having issued orders for release of schooners whose cargoes had been seized.

BALTIMORE, July 15.—Wm. D. Uddersok has been arrested, charged with the murder of a strange man in Chester county, Penn. Uddersok was the principal witness in the famous Goss insurance case, tried in this city recently, in which Mrs. Goss, widow, brought suit to recover $25,000, life policies on her husband, divided among several New York companies and the Travelers, of Hartford Conn. In this case Goss was alleged to have been burned in his shop while he was experimenting with chemicals, and the remains of the dead body taken from the ruins. Uddersok was a brother-in-law of Goss.

"POOR HUMAN NATURE."—The Memphis *Appeal* contains the following important announcement: "On the 23d of February, 1861, there was published in the *Appeal* a list of about one thousand two hundred names of gentlemen who pronounced themselves, straight original secessionists. It is alleged that some of those whose names thus became conspicuous are now prosecuting their own claims against the Government, and have sworn that they were always excessively loyal. The oath they assumed was after this fashion, that 'their sympathies were constantly with the United States.' This oath and that list of names and these claims against the Government constitute a curious picture of modern events, and we are now called on to swear that the list is genuine."

WEDNESDAY.....JULY 16, 1873.

THE CONSTITUTIONAL AMENDMENTS.

In order that the people may vote understandingly on the amendments to the Constitution, at the ensuing election, we deem it necessary to give in full the eight clauses in that instrument proposed to be altered, together with the alterations themselves.

FIRST: IN RELATION TO THE PUBLIC DEBT.

The present Constitution in Article I, Declaration of Rights, provides as follows:

"Sec. 6. To maintain the honor and good faith of the State untarnished, the public debt, regularly contracted before and since the rebellion, shall be regarded as inviolable and never be questioned; but the State shall never assume or pay, or authorize the collection of any debt or obligation, express or implied, incurred in aid of insurrection, or rebellion against the United States, or any claim for the loss or emancipation of any slave."

This section is amended by striking out the first clause down to and including the word "but," so that the amended clause in Article I will then read:

"Sec. 6. The State shall never assume or pay, or authorize the collection of, any debt or obligation, express or implied, incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave."

Another alteration in regard to the public debt is provided for in the same amendment, by striking out section 4, Article V of the present Constitution, which is as follows:

"Sec. 4. The General Assembly shall, by appropriate legislation and by adequate taxation, provide for the prompt and regular payment of the interest on the public debt, and after the year 1880, it shall lay a specific annual tax upon the real and personal property of the State, and the sum thus realized shall be set apart as a sinking fund, to be devoted to the payment of the public debt."

So that the above section will be entirely stricken out and the amended Constitution will not make it compulsory on the Legislature, by express language, to provide for the payment of interest and principal of the public debt.

SECOND: IN RELATION TO THE OFFICE OF SUPERINTENDENT OF PUBLIC WORKS.

Article III, section 1, of the present Constitution names among the other officers of which the Executive Department shall be composed, a Superintendent of Public Works, who shall be elected for a term of four years by the qualified voters of the State, at the same time and places, and in the same manner as members of the General Assembly.

The amendment proposes to strike out the words "Superintendent of Public Works" wherever they occur in the Constitution, thus abolishing that office.

THIRD: IN RELATION TO THE STATE CENSUS.

In the present Constitution, Article II, the following provision is made for taking a State Census:

"Sec. 5. An enumeration of the inhabitants of the State shall be taken under the direction of the General Assembly in the year one thousand eight hundred and seventy-five, and at the end of every ten years thereafter; and the said Senate Districts shall be so altered by the General Assembly, after the first session after the return of every enumeration taken as aforesaid, or by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The amendment proposed to this Article is to strike out all that precedes the words, "the said Senate Districts," in section 5, and to strike out the phrase "as aforesaid, or," the parts so stricken out relating to the census, so that the section as amended will read:

"Sec. 5. The said Senate Districts shall be so altered by the General Assembly at the first session after the return of every enumeration taken by order of Congress, that each Senate District shall contain, as nearly as may be, an equal number of inhabitants, excluding aliens and Indians not taxed, and shall remain unaltered until the return of another enumeration, and shall at all times consist of contiguous territory; and no county shall be divided in the formation of a Senate District, unless such county shall be equitably entitled to two or more Senators."

The object of this amendment is to do away with the unnecessary expense of taking a State census under the direction of the General Assembly, inasmuch as the same work is done by the national Government.

FOURTH: IN RELATION TO EXEMPTIONS FROM TAXATION.

The present Constitution, Article V, Revenue and Taxation, provides as follows:

"Sec. 6. Property belonging to the State or to municipal corporations, shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements for mechanics and farmers, libraries and scientific instruments, to a value not exceeding three hundred dollars."

The amendment proposes to change this section by inserting after the word "instruments," the words "or any other personal property," so that the section as amended will read:

"Sec. 6. Property belonging to the State, or to municipal corporations shall be exempt from taxation. The General Assembly may exempt cemeteries, and property held for educational, scientific, literary, charitable or religious purposes; also wearing apparel, arms for muster, household and kitchen furniture, the mechanical and agricultural implements of mechanics and farmers, libraries and scientific instruments or any other personal property, to a value not exceeding three hundred dollars."

FIFTH: IN RELATION TO THE UNIVERSITY.

The present Constitution, Article IX, has the following on the subject of the University at Chapel Hill:

"Sec. 5. The University of North Carolina, with its lands, emoluments and franchises, is under the control of the State, and shall be held to an inseparable connection with the free public school system of the State."

The amendment proposes to strike out this section entirely, thus severing the University from the common school system, and insert the following in lieu thereof, so that the amended Constitution shall read:

"Sec. 5. The General Assembly shall have power to provide for the election of trustees of the University of North Carolina, in whom when chosen shall be vested all the privileges, rights, franchises and endowments heretofore in anywise granted to or conferred upon the trustees of said University; and the General Assembly may make such provisions, laws and regulations, from time to time as may be necessary and expedient for the maintenance and management of said University."

The following sections of Article IX, relating to the University, are also stricken out:

Sections 13, 14 and 15, relating to the appointment of trustees by the Board of Education, and the officers, powers and rights of the trustees. These matters will hereafter devolve on the Legislature, if the amendment relating to the University is ratified.

SIXTH: IN RELATION TO THE SESSIONS OF THE GENERAL ASSEMBLY.

The present Constitution, Article II, Legislative Department, provides as follows:

"Sec. 2. The Senate and House of Representatives shall meet annually on the third Monday in November, and when assembled shall be denominated the General Assembly."

This section is to be amended by striking out the word "annually," and inserting in lieu thereof the word "biennially," so that the section amended shall read:

"Sec. 2. The Senate and House of Representatives shall meet biennially on the third Monday in November, and when assembled shall be denominated the General Assembly."

This amendment also strikes out the word "annually" in section 6, Article III, and inserts the word "*biennially*," in reference to the requirement of the Governor to communicate to the General Assembly each case of reprieve, commutation or pardon.

SEVENTH: IN RELATION TO THE CODE COMMISSION.

The present Constitution, Article IV, Judicial Department, makes the following provisions concerning the Code Commissioners:

"Sec. 2. Three Commissioners shall be appointed by this Convention to report to the General Assembly at its first session after this Constitution shall be adopted by the people, rules of practice and procedure in accordance with the provisions of the foregoing section, and the Convention shall provide for the Commissioners a reasonable compensation.

Sec. 3. The same Commissioners shall also report to the General Assembly as soon as practicable, a code of law of North Carolina. The Governor shall have power to fill all vacancies occurring in this commission."

The amendment proposes to strike out both these sections, thus abolishing the Code Commission.

EIGHTH: IN RELATION TO FEDERAL AND OTHER OFFICE-HOLDERS.

The present Constitution, Article XIV, provides as follows:

"Sec. 7. No person shall hold more than one lucrative office under the State at the same time: *Provided*, That officers in the Militia, Justices of the Peace, Commissioners of Public Charities and Commissioners appointed for special purposes, shall not be considered officers within the meaning of this section."

The amendment proposes that this section shall read as follows:

"Sec. 7. No person who shall hold any office or place of trust or profit under the United States, or any department thereof, or under this State or any other State or Government, shall hold or exercise any other office or place of trust or profit, under the authority of this State, or be eligible to a seat in either House of the General Assembly: *Provided*, That nothing herein contained shall extend to officers in the Militia, Justices of the Peace, Commissioners of Public Charities or Commissioners for special purposes."

There were eighteen amendments originally proposed, but the eight above specified were all that passed the General Assembly by the requisite two-thirds majority.

These eight amendments are to be submitted separately for ratification or rejection, at the election to be held on Thursday, the seventh day of August. Any person qualified to vote may vote for or against each amendment, with a written or printed ticket with the words "For Amendment," or "Against Amendment." The amendments that receive a majority of the popular vote will be duly ratified. A part or all of them may be either ratified or rejected.

THE REPLY.

"We to-day publish the first number of a series of articles in reply to the letters of Mr. Daniel R. Goodloe, who wrote to discredit the genuineness of the Mecklenburg Declaration of Independence of May 20, 1775.

Next week we will publish another article from the pen of our correspondent, and also an address delivered in this city on the 20th of May, 1835, by Gen. Joseph Graham (the father of Gov. Wm. A. Graham) who declares that he (Gen. Jos. Graham) was present in Charlotte on the 20th of May, 1775, and that the Declaration of Independence was then made in his hearing and within his sight.

Wonder if Mr. Goodloe, "Historicus," &c., will deny General Graham's evidence, or dare say that he did not know what he was talking about?

If there was no other evidence, we think Gen. Graham's testimony would fully and amply sustain the authenticity of the 20th of May Declaration.

Before we are done with the matter we think it will be seen that Mr. Goodloe, "Historicus," &c., do not know as much about it as they think they know, and that they will quit being "amused" at those who dispute them."—*Charlotte Democrat.*

We will wait the result of the discussion which is now pending before publishing the articles on the subject of the Mecklenburg Declaration.

We think the discussion is ill-timed.

We had a better opinion of the *Washington Republican* than to think it would be guilty of the malignancy and bad taste of writing a scurrilous article on Ex-President Davis. That paper would have done a better service by devoting the same space to the exposure of Pool and Abbott.

The article in the *Sentinel* in regard to the Educational Convention, quoted by us yesterday, was not not writen by the Associate Editor of that paper.

Our comments were intended to apply to the writer of that article, and hence had no application to the Associate. His reputation throughout the State precludes the idea that he could have written such a puerile production.

The Brooklyn *Eagle* declares that it is morally certain that the Republicans will be defeated next fall throughout the State of New York, not so much because the people are satisfied with the conduct of the party in opposition, but because they are incensed by the failures of the Republicans everywhere to redeem the reform pledges through which they obtained control a year ago.

Colonel Charles Marshall expects to complete the Life of General Robert E. Lee before winter.

I have used Dr. Simmons' Liver Regulator in my family for Dyspepsia and Sick Headache, and regard it as an invaluable remedy in these attacks. It has not failed to give relief in any instance.

BILLOUS.—If you feel dull, drowsy, debilitated, despondent, have frequent headache, mouth tastes badly in morning, irregular appetite and tongue coated, you are suffering from Torpid Liver or "Billousness." As a remedy for all such cases, Dr. Pierce's Golden Medical Discovery has no equal, as it effects perfect cures, leaving the liver strengthened and healthy. Sold by all first-class druggists.

How unnecessary the anguish many persons undergo from rheumatism, gout, neuralgia, toothache and earache. What unnecessary because the application of Mexican Mustang Liniment to the affected part, or a few drops of it in the cavity of a tooth, affords instantaneous, and what is better, permanent relief. For cuts, wounds, bruises, swellings, and all injuries or diseases which require treatment externally this liniment is everywhere regarded as the most potent and reliable healing agent in existence. For all external injuries or ailments of horses and cattle, it is infallible.

His Honor, HENRY POTTER, late Judge of the United States Court for the District of North Carolina, gave the following as his opinion of Beckwith's Pills:

"For some ten or twelve years past I have been in the habit of using DR. PEEK-WITH'S ANTI-DYSPEPTIC PILLS in my family, and consider them so valuable a domestic medicine, that I never suffer my stock to be exhausted. I have used them with good effect in dyspeptic cases, under various modifications, and have found them efficacious in relieving from Sick Headache, and from all the distressing symptoms of functional derangement of the viscera. As an apperient, they are excellent. I have long had the pleasure of an intimate acquaintance with the inventor of these Pills. He is a gentleman of talents, integrity and worth, and he ranks high in the science of medicine and the healing art.
H. POTTER."

WEDNESDAY.....JULY 16, 1873.

NORTH CAROLINA.

Hon. D. M. Barringer was in Charlotte on Saturday last.

Wilmington is having frequent excursions down the river.

Watermelons have become as "common as dirt" in Charlotte market.

House thieves are depredating in Wilmington. So says the *Journal*.

Says the Newton *Vindicator*: "Corn crop looks splendid, and so does the grass—hard to tell which is best in our fields."

The Jefferson *Mountain Messenger* says "Good morning" has played out, and persons salute each other with "How are you getting along with your copper mines?"

A warrant has been issued in Wilmington for the arrest of a colored man for committing a rape on a colored girl some 10 years of age. The man has disappeared.

The Goldsboro *Messenger* wants the town authorities to put on about twenty five more colored policemen—in order that they may show themselves. Aren't you joking, Boniz?

One hundred and sixty-three bales of cotton were sold in Charlotte last week—extreme prices 10¼a17¾, closing on Saturday with a decline of ¼ cent on all grades.

"Now, see here Pleas—darned if you've got to cuss me," was what an indignant candidate for Sheriff in Davie said, when his opponent called him an *ex officio* that wanted all the offices in the county.

The Charlotte *Observer* regrets to learn that Mr. D. A. Wilson, a young man of Long Creek Township, was thrown from his horse on Friday, and injured in such a manner as to cause his death Saturday morning.

A large and enthusiastic meeting of the citizens of Henderson was held at Hendersonville on the 4th inst., to take steps toward early work on the Asheville & Spartanburg Railroad. The people of that section are determined to have a road.

A young colored women, by the name of Martha Sutton, committed suicide in Wilmington Friday night, by taking laudanum. She had been drinking heavily the evening previous. So we learn from the *Star*.

Says the Jefferson *Mountain Messenger*:

"We would undertake to puff our mineral diggers was it not for the fact that the mining business has grown to such an extent that we do not know where to begin at. During the past few days we have heard of several new mines of copper, mica, etc."

Says the Goldsboro *Messenger*: "It is with exceeding pleasure that we chronicle the fact of information received concerning the encouraging prospects of our husbandrymen, regarding their crops. We are told that the indications of the present crops are very flattering, since the recent rains. The cotton weed is rather small but is now growing rapidly, and bolling unusually full."

Says the Statesville *American*: "After a patient, laborous, but pleasant research, Col. G. N. Folk and Judge Cilly, of Lenoir, and Fab. H. Busbee, Esq., of Raleigh, have ascertained that Judge Cloud, of the 8th Judicial District, was one of the original pilgrims who came over on the ill fated May flower. We had thought that the Judge was a member of one of the last ten tribes of Israel. Much to our surprise and pleasure, we learn he is soon to be married to one of Carolina's fairest daughters."

We are surprised that Gen. D. H. Hill, editor of the Charlotte *Southern Home*, should allow himself to be inveigled into a newspaper controversy with that vile old puppy—Brownlow. The old scoundrel was so fast sinking into oblivion that two-thirds of the people thought he was dead and at the ——— *Piedmont Press.*

Friend Hussey should remember that the old pro slavery ranter is now by the grace of negro influence in that august body, the Senate of the United States. The statements of the *Senator* deserve some consideration, if those of the "vile old puppy" do not. Besides, the old brute has served as a text for the discussion of certain principles which needed to be understood by the Southern people.—*Southern Home.*

Says the Wilmington *Star* of Sunday: "We could glean but few additional particulars yesterday in reference to the accidental killing of young James at Wadesboro on Friday. It appears that the gun used on the occasion had been unloaded for a long time, but some one had put a charge in it a few days before without the knowledge of the youth at whose hands the terrible disaster was effected. In a playful mood he seized the gun, believing it to be still empty, pointed it at young James, and, remarking "I will shoot you," pulled the trigger and the piece was discharged, the load entering the body of the unfortunate boy, inflicting wounds from which he shortly after died."

THE BALL ON VOYAGE ACROSS THE ATLANTIC.—Prof. Henry, of the Smithsonian Institute, has written a letter to Prof. Wise upon the subject of the latter's aerial voyage across the Atlantic, in which he says he thinks that if the difficulty of sustaining a balloon in the air a sufficient time is obviated, the voyage can be made. He, however, thinks there is danger of meeting a cyclone, which might cary the balloon around in a circle of several thousand miles, or throw it back upon the coast of the United States.

Radical ruffians called by courtesy Sheriffs go into newspaper offices in Florida, armed with pistols and shot guns. But they are promptly disarmed, and are mercifully allowed by the "fighting editor" to depart, like wayward sisters, in peace, on promise of good behavior for the future. Blessed are they whom Grant's henchmen cannot intimidate.

THE WOOL CROP.—The wool crop in the West is good. Advices from the wool-growing sections in Ohio, Wisconsin and Illinois are coming in freely, and generally agree in their character. The shearing is over and the reports generally are very favorable.

A Beautiful Young Lady in a Market Cart.

A Danville correspondent of the Richmond *Whig* writes:

Among the local incidents of the past week was the appearance of a beautiful young lady from North Carolina seated in a wagon in the market space, with chickens and butter for sale. Her beauty excelled any seen in these parts for a long time. She was accompanied by her mother and little brother, and was modest in appearance, with a countenance that indicated a good and true heart within. Her beauty attracted many of our young men to the wagon in which she was seated. One of them became so enamored with her that he actually bought all of her marketing and sold it for the same he paid for it, considering that the sight of her had amply repaid him for any loss he might sustain. This beautiful young lady did not wear a two-story chignon, with the little appendage on the top of the head called a "bonnet" nor was she attired in twenty-two yards of dry-goods, doubled and trebled with the usual "tuck-up" behind, but she wore a plain and tidy dress, consisting of about eight yards of calico, made in the plain and neat style of the olden time. Lucky will be the man who succeeds in captivating such a young lady for a wife.

South Carolina financial matters have come to such a pass that a temporary injunction has been issued restraining the State from levying or collecting any tax for the purpose of paying the interest upon the State bonds, known as the conversion bonds, amounting to $7,000,000.

One of the famous d'vorce lawyers of New York, in his advertisement in the city papers, says: "Hymenial incompatabilities as a speciality delicately adjusted. 'Tis slavery to retain the hands after the heart has fled." That advertisement ought to bring custom if anything would.

A young lady's bridal trousseau, worth $1.500, was lately seized by the Custom House officials in New York.

You should use the "Carolina Baking Powders" because there is no other that gives such satisfaction. It makes charming

Bread, Delicious Rolls, Cakes, Biscuits, Waffles, Corn Bread, Griddle Cakes Pastry and Cakes of every Variety. For making Buckwheat Cakes it has no rival.

Those that have tried it, say it is decidedly the VERY BEST. Feeling considerably flattered at the increasing demand where put in competition to so many kinds now on the market, that I shall in future manufacture it on a much greater scale.

It is the only Baking Powder manufactured in the South, and I guarantee it to give as much satisfaction as any other.

WEDNESDAY,.....JULY 16, 1873.

Some Adventures of a Danbury Family.

There are men who dispute what they do not understand. Mr. Coville is such a man. When he heard a carpenter say that there were so many shingles on the roof of his house because the roof contained so many square feet, Coville doubted the figures, and when the carpenter went away he determined to test the matter by going up on the roof and counting them. And he went up there. He squeezed through the scuttle—Coville weighs 230—and then sat down on the roof and worked his way carefully and deliberately toward the gutter. When he got part way down he heard a sound between him and the shingles, and became aware that there was an interference some way in his further locomotion. He tried to turn over and crawl back, but the obstruction held him. Then he tried to move along a little, in hopes that the trouble would prove but temporary; but an increased sound convinced him that either a nail or a sliver had hold of his cloth, and that if he would save any of it he must use caution. His folks were in the house, but he could not make them hear, and, besides, he didn't want to attract the attention of the neighbors. So he sat there until after dark and thought. It would have been an excellent opportunity to have counted the shingles, but he neglected to use it. His mind appeared to run into other channels. He sat there an hour after dark, seeing no one he could notify of his position. Then he saw two boys approach the gate from the house, and reaching there, stop. It was light enough for him to see that one of the two was his son, and although he objected to having the other boy knowing of his misfortune, yet he had grown tired of holding on to the roof, and concluded he could bribe the strange boy into silence. With this arrangement mapped out, he took out his knife, and threw it so that it would strike near to the boys and attract their attention. It struck nearer than he anticipated. In fact it struck so close as to hit the strange boy on the head, and nearly brain him. As soon as he recovered his equilibrium he turned on Coville's boy, who, he was confident, had attempted to kill him, and introduced some astonishment and bruises in his face. Then he threw him down, and kicked him in the side, and banged him on the head and drew him over into the gutter, and pounded his legs, and then hauled him back to the walk again and knocked his head against the gate. And all the while the elder Coville sat on the roof and screamed for the police, but couldn't get away. And then Mrs. Coville dashed out with a broom, and contributed a few novel features to the affair at the gate, and one of the boarders dashed out with a double-barrelled gun, and hearing the cries from the roof looked up there and espying a figure, which was undoubtly a burglar, drove a handful of shot into its legs. With a howl of agony Coville made a plunge to dodge the missiles, freed himself from the roof, and went sailing shingles with awful velocity, both legs spread spread out, his hair on end, and his hands making desperate but fruitless efforts to save himself. He tried to swear, but was so frightened that he lost his power of speech; and when he passed over the edge of the roof, with twenty feet of tin-gutter hitched to him, the boarder gave him the contents of the other barrel, and then drove into the house to load up again. The unfortunate Coville struck into a cherry tree and thence bounded to the ground, where he was recognized, picked up by the assembled neighbors, and carried into the house. A new doctor is making good day wages picking the shot out of his legs. The boarder has gone into the country to spend the summer, and the junior Coville, having sequestered a piece of brick in his handkerchief, is laying low for that other boy. He says that before the calm of another Sabbath rests on New England there will be another boy in Danbury who can't wear a cap.—*Danbury News.*

The Petersburg *Index* says that not all the time since the war have half so many new and substantial buildings been reared as have been constructed this year in Petersburg.

NORTH CAROLINA ALMANAC, 1873
Calculated by Dr. Craven, and compiled by L. Branson, printed on fine-sized and calendered paper, neatly and elegantly.
It contains many useful recipes, much valuable statistical matter, and many
AGRICULTURAL
items. It is emphatically an AGRICULTURAL ALMANAC. It is different from every other Almanac; has been published a number of years and sold successfully.—It is, we think, certainly as good if not better than any other.
A few still on hand—order soon,
